

1/4-20 SD5 Bi-Met 300[®] Subframe Attachment

- Bi-metal fastener design allows for higher drilling capacity while maintaining the corrosion resistance properties of stainless steel
- Silver VistaCoat® provides a barrier to help prevent galvanic corrosion when used with aluminum
- High ductility reduces delayed embrittlement failures
- Quickly drills and taps threads in metal up to 1/2" thick

Application

- Heavy gauge metal connections
- Curtain wall and building envelope attachments
- Dissimilar metal connections

Approvals

• Listed on Intertek CCRR-0387 report

Installation and Application Considerations

Install fasteners with 0-2000 RPM screw driver equipped with depth sensing nose piece.

Use of impact guns or hammer drills is not recommended.

^{*} Torsional values for Stainless Steel section only.
