

SFS

Services

Design, manufacture & supply

SFS designs, manufactures and supplies fasteners for construction. Segments and applications include: low slope roofing, post-frame, metal building and commercial construction facades and curtain walls.

At SFS, positive customer experience is paramount. We are committed to fulfilling customer requirements by going above and beyond expectations. We blend proactive engineering and holistic add-on services to provide our customers end to end solutions.

Our services at a glance.

Engineering services

Our highly creative technical specialists provide a systematic approach. This includes multi-disciplined engineering services which ensure optimal performance of the building envelope.

Services for facade framing systems

We are experts in design development, shop drawings and submittal calculations on complex building facades.

Order and delivery services

Our reliable order processes and worldwide delivery network, ensure complete and on-time as ordered service.

Job site services

Our professional network offers on-site product training.

Tool repair program

We offer quick turn-around repair service of SFS productivity tools.

eLogistics

Our automated logistics processes with track and trace features mean customers spend less time from order to delivery.

Engineering Services

From idea generation to concept development, our disciplined product development program can help you solve your challenging fastening problems. Our engineers work directly with you to develop customer specific products to solve challenging designs.

In-house testing

We are equipped with state-of-the-art testing facilities to analyze every aspect from the fastener to the final building assembly. Testing services include: wind uplift, structural, weather tightness, mechanical properties, corrosion, accelerated weathering and installation performance.

Third party, independent laboratory certification

We also have third party, independent laboratory certification options for testing programs where OEM's, designers or project requirements demand independent certification.

Service	Description	Item No.	Service Value/Cost
Wind-uplift testing low slope, per test	ASTM E 1592, 12 ft x 24 ft, FM4471	1584589	\$1750
Wind-uplift testing roofing and cladding, per test	ASTM E 1592, 12 ft x 24 ft	1584590	\$1750
Third party, independent laboratory certification	Testing witnessed by independent institute	1584601	Varies per product
Customer specific product development	New customized to specific application	-	Subject to inquiry
Customer specific parts, prototypes	Manufacturing tooling and samples	-	Subject to inquiry
Engineering calculations	Application specific calculations	1584602	\$90/hour
Engineering application drawings	Application specific drawings	1584603	\$60/hour
Lab services	Corrosion, weathering, mechanical	1584604	Subject to inquiry

All prices and services subject to change. Contact SFS for latest information.

Services for Facade Framing Systems

We design and manufacture a range of aluminum brackets, rails and fastening systems for vertical and horizontal cladding applications. Using project specific installation details, our experienced in-house engineers use the latest software to engineer shop drawings and submittal calculations. We offer on-site training for installers of all Nvelope rainscreen cladding systems.

Service	Description	Item No.	Service Value/Cost
Nvelope, shop drawings	Project specific installation details	1584605	Subject to inquiry
Nvelope, PE stamped shop drawings	Project specific installation details, PE stamped	1584606	Subject to inquiry
Nvelope, submittal calculations	Project specific calculations	1584607	Subject to inquiry
Nvelope, PE stamped submittal calculations	Project specific calculations, PE stamped	1584608	Subject to inquiry
Nvelope rail cut	Cutting of Nvelope rails per project requirements	1528133	Subject to inquiry

All prices and services subject to change. Contact SFS for latest information.

Order and Delivery Services

Our reputation is built on flexible and attentive fastener supply services to meet the needs of our customers. Despite the fact that our delivery service for standard items vary according to order specifications, SFS also accommodates express deliveries.

Our products can be customized with:

- labeling requirements
- bagging, packaging and carton requirements
- color matching
- consignment programs
- skid configurations
- expedited shipping services can be accommodated when active construction sites demand immediate attention

Service	Description	Item No.	Service Value/Cost
Customized labelling (box)	Customer specific box label for logos, colors, purchase orders, part numbers, etc.	1584609	\$0.50 per box labeled
Customized labelling (bag)	Customer specific bag label for logos, colors, purchase orders, part numbers, etc.	1584610	\$0.25 per bag labeled
Customized packaging (box)	Customer specific box, quantity, etc.	1584621	\$2.50 per box
Customized bagging and packaging	Customer specific bag quantities, clam shells for retail	1584622	Subject to inquiry
Consignment inventory at customer's facility	Consignment services customized according to needs	1584623	Subject to inquiry
Custom color match-up charge small volume < 1,000 pcs	Standard items	-	\$50
Custom color match-up charge large volume > 1,000 pcs	Standard items	-	\$25
Customized packing slips / skid sheets	Customer specific skid sheets and packing slips to optimize receiving	1584624	\$5.00 per shipment
Specialized skid configuration	Customer specific skid configuration to optimize put away	1584625	\$10.00 per skid
Expedited paint orders < 1000 pieces	Express delivery service	1555268	\$25
Expedited paint orders > 1000 pieces	Express delivery service	1555268	\$50
Expedited packaging/boxing < 1000 pieces	Express delivery service	1555268	\$25
Expedited packaging/boxing > 1000 pieces	Express delivery service	1555268	\$50
Residential delivery service	Shipment to residential ship address	-	Based upon shipment charge
Customer preferred freight carrier		-	Cost difference billed
Cancellation fee		1574783	\$25

All prices and services subject to change. Contact SFS for latest information.

Job Site Services

With a long track record of excellence, SFS provides you with job site services and on-site product training. Our trainings are application specific and deal with common fastening problems and solutions.

Service	Description	Item No.	Service Value/Cost
Dekfast pull-test (including travel costs)	Pull-test form	1584626	Subject to inquiry
Product training	Training at customer site	1584627	Subject to inquiry

Tool Repair Program

Projects are easier with SFS productivity tools and equipment. SFS stands behind our tools with warranties and quick turn-around tool repair service.

Service	Description	Item No.	Service Value/Cost
<i>isoweld</i> ® Backpack tool repair	<i>isoweld</i> ® tool repair	–	Based on warranty terms
<i>isoweld</i> ® stand-up tool repair	<i>isoweld</i> ® tool repair	–	Based on warranty terms
<i>Gesipa</i> ® rivet gun tool repair	<i>Gesipa</i> ® tool repair	1528304	\$150

All prices and services subject to change. Contact SFS for latest information.

Inventory Management eLogistics

In addition to our robust range of services, we also offer innovative logistics systems using our global expertise to assist our customers – large and small – to do business easier and more efficiently. Our eLogistics system features an easy access ePortal with track and trace functionality.

If you are interested in learning how our eLogistics can improve your inventory management, please contact us.
